1 - Os preços desta Lista vigoram desde 01 de janeiro de 2022. Podem ser alterados sem aviso prévio.

2 - Os Preços desta Lista serão adicionados do IVA em vigor.

3 - O valor de **Faturação mínima é de EUR 50,00.**

4 - Os Pagamentos serão efetuados para o nosso escritório ou depositados directamente nas nossas contas bancárias abaixo indicadas, com envio do comprovativo para o mail: **geral@marpeche.com**

Banco Millennium BCP - NIB 0033 0000 0000 2014 788 05

5 - Os prazos e descontos são os seguintes:

A pronto pagamento / contra entrega - 5% Desconto

A 30 dias - 3% Desconto

A primeira venda é sempre a pronto pagamento

Não vendemos a prazos superiores a 45 dias

6 - As mercadorias viajam por conta e risco do cliente.

O transporte é por conta do cliente. **Para vendas inferiores a 100 EUROS debitamos 5 EUROS de transporte.**

Para vendas superiores a 100 EUROS, os portes, no continente, são pagos por nós. Este transporte tem seguro por remessa quando as avarias ou falhas forem reclamadas ao transportador no ato da receção. Se o cliente não fizer a reclamação no ato da receção, perde o seguro.

7 - Não vendemos à consignação.

8 - As devoluções serão aceites até aos 15 dias da data da fatura, acompanhadas da nota de devolução.

9 - A Garantia que damos é contra defeitos de fabrico. Cobre peças e mão de obra. A garantia não cobre o dano accidental, uso incorreto ou negligência.

10- As reparações deverão vir acompanhadas de nota explicativa. O custo e portes são debitados.

11 - Nas exportações os preços desta lista são EX-worts e isentos.

2323R BN ■ Black Nickel

Amo a curvatura tonda e occhiello con microardiglione e punta affilata chimicamente. Struttura robusta indispensabile per catture impegnative in acque dolci a ledgering innescando bigattini, vermi o mais e in saltwater per saraghi e orate.

DAIKICHI

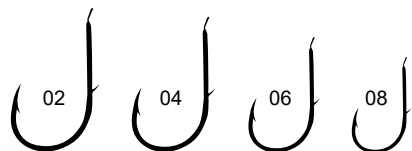

3679 BN ■ Black Nickel

NEW

Amo black nickel forgiato con ardiglione sul gambo per una perfetta tenuta dell'esca sull'amo. La punta rientrante garantisce una perfetta presa in fase di combattimento. Ideale per la pesca con esca viva sia in mare che in acqua dolce.

ANZOIS
0493BK

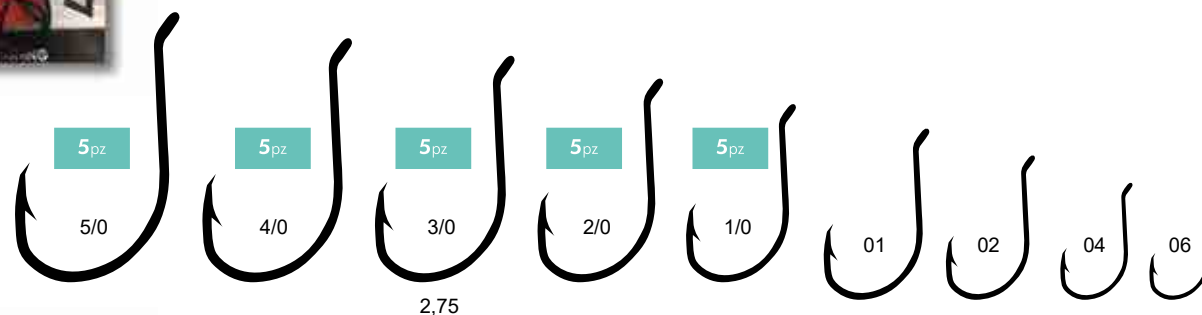

DAIKICHI

Amo forgiato con occhiello, si presta a svariati tipi di pesca, sia in mare con l'innesco di grosse esche a surf casting o bolentino, oppure in acqua dolce per creare teste piombate da torrente o laghetto.

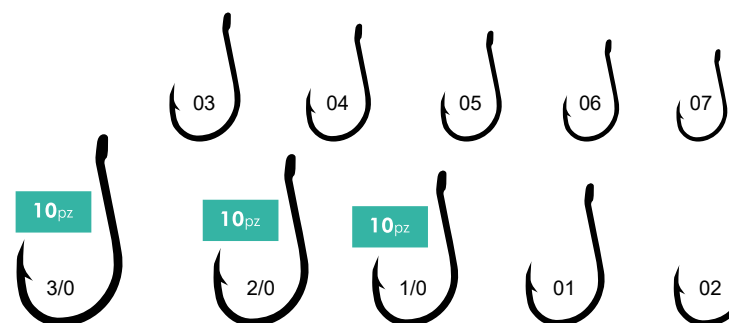

298S

DAIKICHI

Amo in acciaio forgiato con punta reverse e occhiello. Si presta alla pesca sia in mare a bolentino che per l'innesco del vivo in fiume o lago per lucci, lucciperca e persici.

3628 BN

Amo forgiato dalla punta reverse e affilato chimicamente. Trova impiego in svariate pesche data la sua incredibile robustezza, dal carp fishing alla pesca in mare. Ideale anche per il bassfishing a wacky rig o drop-shot.

ANZOIS

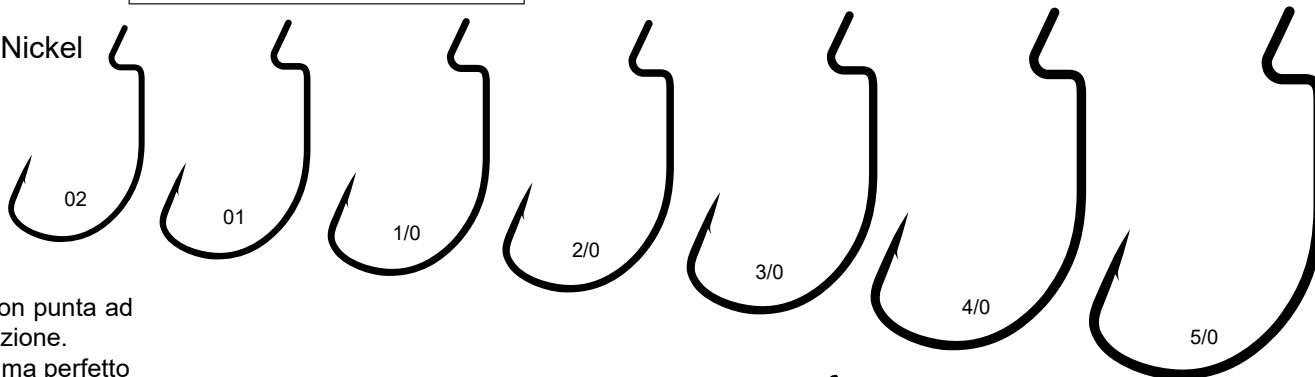

316 BN ■ Black Nickel

DAIKICHI
X1

5pz

Amo da texas dal filo robusto con punta ad altissimo coefficiente di penetrazione. Ideale per lucci, bass e spigole ma perfetto anche per siluri di media taglia.

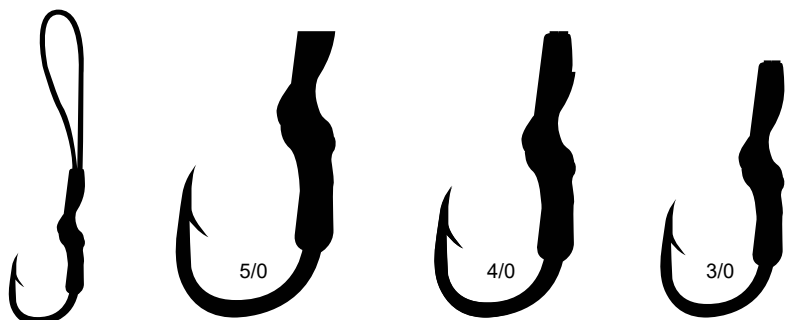

ASSIST HOOK

601 BN-INOX ■ Tin

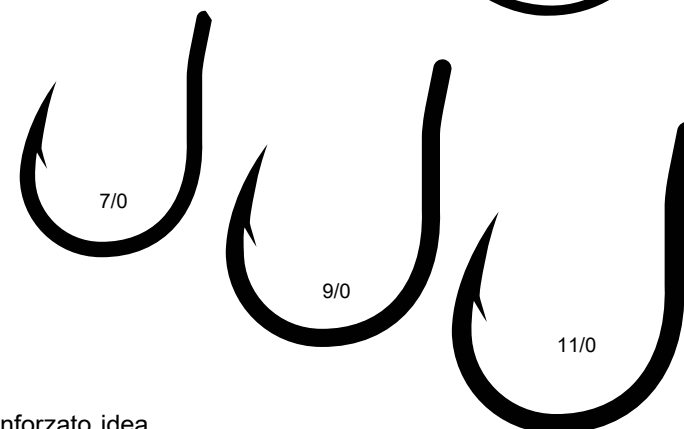

Assist hook realizzati con ami e dacron ad altissima resistenza per metal jig di piccola e media dimensione. Perfetti sia per lo spin ning che per il vertical jigging/slow pitching.

264 TI ■ Tin

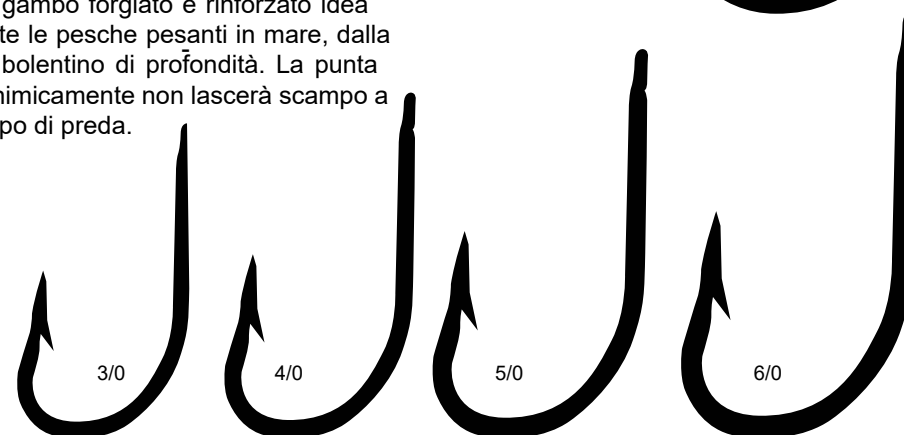

Amo in acciaio ad alto tenore di carbonio, studiato per la realizzazione di assist hook da vertical jigging. La curva ampia e il micro-ardiglione permettono una penetrazione migliore, grazie anche alla punta affilata chimicamente.

750 TI ■ Tin

Amo dal gambo forgiato e rinforzato ideale per tutte le pesche pesanti in mare, dalla traina al bolentino di profondità. La punta affilata chimicamente non lascerà scampo a nessun tipo di preda.

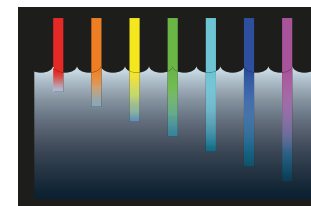

LINEAS / ANZOIS

BIG FIGHT FLUOROCARBON

Daikichi Big Fight, il fluorocarbon da terminali per pesci di grossa taglia. Ideale per la realizzazione di leader o di montature per la pesca in saltwater e freshwater, dove è richiesto un carico di rottura estremamente alto ed una elevata resistenza all'abrasione.

Come ogni fluorocarbon, Big Fight è virtualmente invisibile in acqua e migliorerà le chance di cattura su pesci particolarmente sospettosi.

THE RED LINE

Nella colonna d'acqua, il colore rosso è il primo a scomparire fra tutti i colori dello spettro. Per questo, Real Winner ha deciso di dare proprio questa tonalità al suo speciale filo fluorocated Made in Japan, per rendere invisibile un filo che cambierà il vostro modo di pescare. I diametri e i carichi di rottura sono stati testati e controllati personalmente su tutte le misure, come vuole la politica Real Winner, affinché i dati riportati siano totalmente reali.

Galleggiante in EVA High Density ideale per la pesca alla trota in lago, trova utilizzo anche in correnti poco sostenute e in carpodromo. Realizzato in EVA, è indistruttibile, resistente a urti e graffi. Deriva in FDV e passante interno. La sua colorazione permette un'ottima visibilità in acqua anche nelle condizioni più avverse.

AMOSTRAS

KILLER

04.500	KILLER	6cm x 4pcs	todas as 20 cores	2,40
--------	--------	------------	-------------------	------

KILLER - Amostra de estrutura excelente que promete uma grande duração. Macia e muito elástica mas com o corpo rígido. Bigodes muito sensíveis e um longo rabo asseguram um excelente trabalho na água. A combinação de forma e cores e um agressivo cheiro a alho faz atrair os predadores em todas as condições climáticas. Não sendo uma amostra grande consegue atrair a maioria dos grandes predadores.

60506.000	JigHead - cabeçote "pintado" 500	2	2,5g	5pcs	0,75
-----------	----------------------------------	---	------	------	------

JIGHEAD

60570.004	JigHead - Eagle Clow	570	1	4g	5pcs
60570.021	JigHead - Eagle Clow	570	4/0	21g	5pcs

L-SERIES

04.100	L-SERIES	7cm x 4pcs	21-23-24-27-32-36-39
--------	----------	------------	----------------------

L-SERIES - As cores não são muito agressivas mas esta série de amostras é a única em que a forma do corpo e a elasticidade da amostra criam uma vibração única atractiva para os peixes. Tem cheiro de aromas fundidos levando-nos a pescar lúcio-perca, achigã e lúcios.

QUIS

04.300	QUIS	9,5cm x 4pcs	21-23-24-27-34-39
04.400	QUIS	12 cm x 3pcs	23-24-27-37-38

QUIS – Esta série foi desenhada de acordo com as últimas grandes modas de produção de amostras. É produzida com cheiro de peixe e com sal. Pela sua forma e pelo modo activo de trabalhar é perfeita para os predadores. Também óptima para os peixes de mar.

CRAWFISH

04.800	CRAWFISH	6cm x 4pcs	20-38
--------	----------	------------	-------

CRAWFISH – Amostra produzida com alta qualidade. Não afunda na água. Chama os predadores por imitar na perfeição os movimentos do lagostim vivo. Perfeita para achigã, lúcio, lúcio-perca e demais predadores. Produzida com cheiro a peixe.

DRAGON

04.600	DRAGON	6cm x 8pcs	23-26-29-30
04.700	DRAGON	11cm x 4pcs	20-21-23-24-25-27-30-35-36

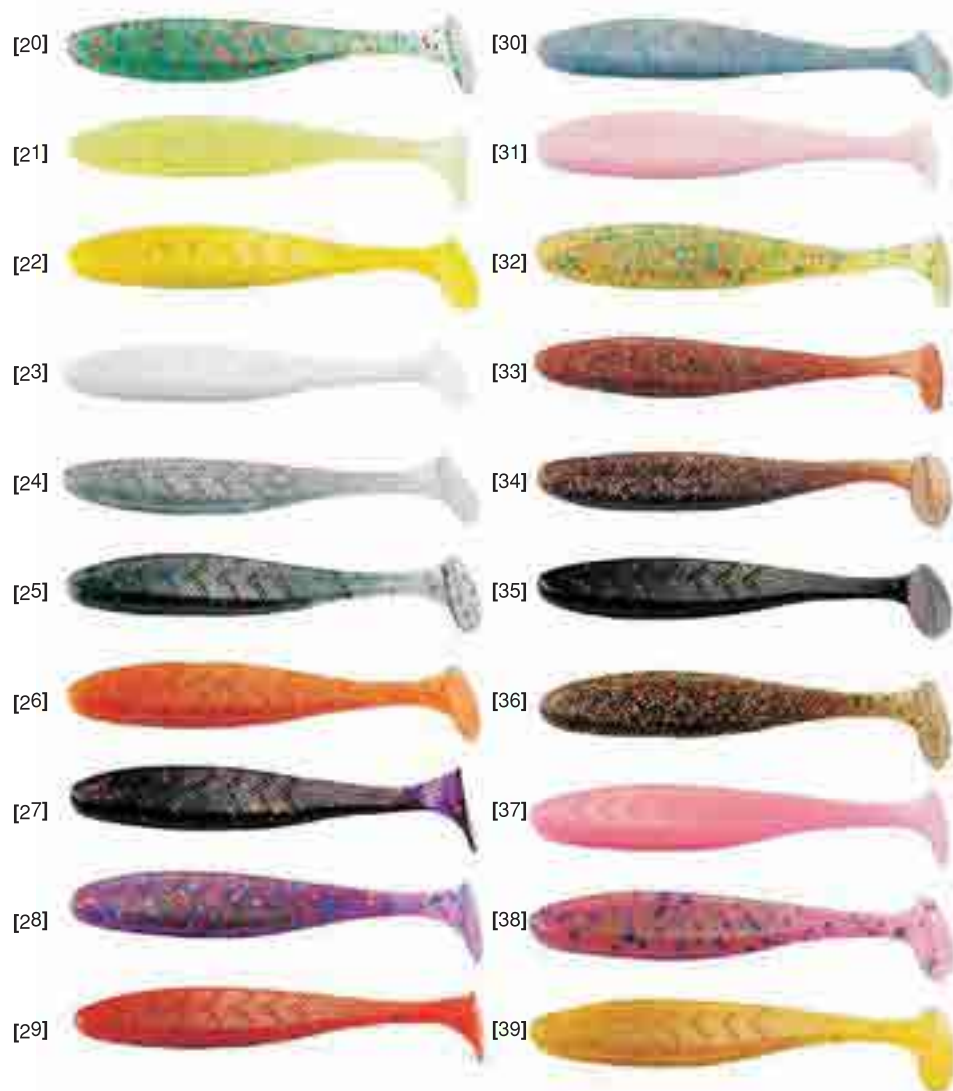

DRAGON-Amostra extraordinária na forma de trabalhar e nas vibrações que produz. Perfeita para pescar lúcio, achigã e outros peixes predadores. Feita com cheiro de camarão. Atraente também para peixes de mar.

AMOSTRAS

CLASSIC

05.100	CLASSIC	9cm x 4pcs	20-21-23-27-28-34-38-39
05.200	CLASSIC	12cm x 2pcs	23-25-27-32-34-35-38-39

CLASSIC – Amostra de forma standard. Atrai predadores com a sua forma activa de trabalhar. Perfeita para todos os peixes predadores incluindo achigã.
Produzida com cheiro de peixe e com sal. Atraente para peixes de mar como o robalo.

Classic - the standart form soft lure. Baits form attracting predators with active tail work. Perfect for catching walleye, perch, pike and other predatory fish. Made with fish scent, salted

BAIT SIZE – 7cm (pack 6pcs),
9cm (pack 4pcs) AND 12cm (pack 2pcs).
AVAILABLE IN 20 COLORS,
INCLUDING 4 COLOR WITH UV ADDITIVES.

The RYOBI ECUSIMA BIG CAT 6500 and 9500 are top reels for heavy spin fishing for catfish and other big predators. The robust gear and oversized anti-reverse mechanism show the robustness of the RYOBI ECUSIMA BIG CAT 6500 and 9500. The reel is produced to the essentials to withstand the roughest fishing methods. High drag power and stability of the RYOBI carbon drag.

An incredible value for money reel, developed not only for braided lines but mono too!

Perfect for trout fishing, spinning, ledgering for eel and zander or for light pike fishing, the **WFT HIGH BRAID** is an allround performer.

The 5+1 stainless steel ball bearings makes the reel incredibly smooth. The Rotary Flat Oscillation system ensures precise line lay when retrieving braid or monofilament.

WFT SALZMEISTER

SALZMEISTER

WFT SALZMEISTER rods combine minimum weight with best bite detection. Premium components suited perfectly to whatever you intend to fish for and including our indestructible HIGH CARBON NEVER CRACK blank. Original SeaGuide Titanium Gold Guides (under-wrapped), ABS/NYLON Stainless Steel reel seat and precise flatted down Hard-EVA handle with rubber butt cap and stunning pearl white finish. All 4 models are also available as 5-pc travel versions, with closed length less than 90 cm.

POLLACK JIGGER

POLLACK JIGGER is developed especially for saltwater spinning in-shore with smaller lures and at a high-speed retrieve. However, for this rod there is no limit regarding the size of fish!

KÖHLER JIGGER

KÖHLER JIGGER is made for saltwater fishing from small and medium sized boats with a fast lure retrieve. This rod will dominate all sizes of game fish.

COASTAL JIGGER

COASTAL JIGGER covers nearly every style of saltwater spin-

fishing near to shore, it is perfect for fishing from smaller and medium sized boats with a fast lure retrieve. This rod will dominate all sizes of game fish, jugging, picking or light fishing with natural baits, all styles are perfect for this rod.

OFFSHORE JIGGER

OFFSHORE JIGGER is made for saltwater fishing from smaller and medium sized boats with a fast or slow lure retrieve. Perfect rod for a fast drift and depth to more than 50m. This rod will dominate all sizes of game fish.

LOOM AAL SPEZIAL WFT

Strong composite rod, developed for ground and eel fishing. Equipped with an EVA handle, nylon/ABS reel seat and SIC guides with stainless steel frames. Highlight of this rod are the fluorescent pigments, which will glow in total darkness. Enables you to locate the rod when the fish picks up the bait and runs and also detect bites in the darkness.

TARGETFISH 8

Our 8 strand round-braided fishing line. The WFT TARGETFISH 8 is particularly attuned to certain species and fishing conditions.

Thanks to the 8 strands TFS is incredibly supple without being too soft. It glides silently through the guides. This braid

achieves maximum casting distances and superb strike detection because of its low water-absorption.

Despite its comparatively low price the TFS has high scores in respects of colour fastness, knot strength and abrasion resistance.

TARGETFISH 8 PILK

The WFT TARGETFISH 8 is developed for light to medium pilk fishing. The yellow color ensures optimum control. This is especially important when several anglers are fishing in light corners from the same boat.

TARGETFISH 8 KARPEN/CARP

Black lines have proved their worth over years in carp fishing. The WFT TARGETFISH 8 offers optimal casting features as well. And 'black' just looks good on any reel.

TARGETFISH 8 AAL/EEL

Very inconspicuously coloured line for groundfishing for eels and zander. Smooth but strong.

TARGETFISH 8 FORELLE/SEA TROUT

This semi-transparent braided line has its particular advantages when you're fishing close to the surface. In sea-trout-fishing, every little detail counts to be successful.

TARGETFISH 8 SURF & DEEP SEA

Multicolor is becoming increasingly popular. Even without a line-counter you have a perfect clue in which depth you fish, how much line is still on the reel, or how far out you are fishing. With a color change of 5 x 10 m the color, with which one started, appears again after 50 m, 100 m, 150 m and so on. Ideal for deep sea and surf fishing.

WFT TARGETFISH 8 SURF & DEEP SEA MULTICOLOR

LINHAS

TAPER LEADER

5 x 15 m crystal clear leaders on one spool.

These leaders can be easily knotted to your monofilament or braid main line. The WFT TAPER LEADERS were developed for surf fishing. Crystal clear, very supple and abrasion-resistant, gradually tapered before getting to 0,57mm.

Without any knots this allows for maximum casting power and distance. Depending on the diameter, the WFT TAPER LEADER is also suitable for carp and feeder fishing.

TAPER LINE

WFT TAPER LINE is designed for surf fishing. This line is crystal clear, very supple and abrasion-resistant, gradually tapered on the first 15 meters before getting to 0,57 mm.

Without any knots this allows for maximum casting power and distance. Depending on the diameter, the WFT TAPER LINE is also suitable for carp and feeder fishing.

WFT TAPER LINE

Item-No.	Ø mm	Length m / yds
10-C 999-020	0,20 - 0,57	240 / 262

10-C 999-036	0,36 - 0,57	240 / 262

TROUT MONO

This high-performance monofilament has been specially developed for trout fishing. The line is crystal clear and almost invisible in the water. The mono has a particularly good knot strength and suppleness, which is second to none and will set new standards. With the WFT TROUT MONO you have mono that does not spook the fish, perfect for casting at distance, less resistance when the trout takes line from the reel and also a line with optimised stretching characteristics to land the fish safely.

LINHAS

PLASMA MULTI COLOR

An exceptional advantage for all kind of angling is dependant on lots of running line, for example when surfcasting or deep sea angling. Multicoloured braid in equal colour lengths make it easier to track the distance you're fishing at and how much line must be retrieved. By request of many sea anglers the WFT PLASMA KG is available in a multicolor version and also in lengths of 330 yds.

Color change is every 10 meters (blue-green-yellow-red-orange).

So each color is repeated after every 50 meters!

MULTICOOLER

PUMP ATTACHMENT

Fitted clip on the back to store the WFT MULTICOOLER air pump for transport.

FEEDTHROUGH

Custom-fit feedthrough for the air pump hose.

Batteries not included

TIP: OPTIMALER PROTECTION

Cold temperatures can drain your batteries and lower the efficiency. By the use of the efficient isolation of the WFT MULTICOOLER your battery will stay perfectly protected. The built-in valve takes care of the pressure relief.

ALWAYS SAFE

The feedthrough for the hose of the oxygen pump can be closed with the coative plug. It also takes the pressure relief on air travel.

PLASTIC GRATING

12 mm high, filets do not sit in the well!

Linha esportiva ARATY® BEST CAST

I.G.F.A Class

A linha Araty Best Cast é a melhor opção para quem pesca com iscas artificiais. A baixa memória permite movimentos ágeis e, ao mesmo tempo, combina a sensibilidade e a elasticidade para o pescador fisgar no momento certo e lutar com o peixe. Best Cast foi elaborada para uso em carretilhas, com ampla gama de diâmetros e cores. Para os que se orgulham da técnica e gostam de reproduzir as condições de torneios, **Best Cast tem resistência de acordo com as normas IGFA** International Game Fish Association.

m	300	300	300	300	300

- Baixa memória
- I.G.F.A Class
- Alta maciez
- Elevada resistência à ruptura

Linha esportiva ARATY® RED SPIDER

A linha Araty Red Spider é elaborada com um copolímero de nylon Premium. Sua coloração vermelha uma vez imersa começa a se tornar invisível para os peixes. Isso acontece porque a água filtra algumas cores mais rapidamente que outras, e a primeira cor a ser totalmente filtrada é a vermelha.

- Maior durabilidade
- Elevada resistência
- Baixo índice de alongamento
- Resistente à abrasão
- Macia
